

RAMSEY

Potential

Ramsey has enormous potential.

But potential alone changes nothing.

Leadership, investment and belief do. The biggest opportunities for Ramsey will come when government works alongside local businesses, investors and community organisations to turn plans into reality rather than leaving good ideas sitting on shelves.

Housing And Opportunity

Too many young people are struggling to stay on the Island.

Housing is now one of our biggest challenges and we need to prioritise brownfield sites before greenfield expansion.

We need:

- More homes
- Faster delivery
- More social housing
- Support for first-time buyers
- Infrastructure alongside development
- Bringing empty properties back into use

If young people cannot afford to stay, our future is weakened.

I am proud to have played a leading role in bringing forward a significant new social housing project for Ramsey.

For too long, people have heard promises about housing without seeing meaningful progress. This project demonstrates what can be achieved when people are prepared to work together, overcome obstacles and focus on delivery.

I believe elected representatives should be judged not simply on what they promise, but on what they help make happen.

Ramsey needs more of that approach.

Healthcare

Healthcare matters deeply to families across Ramsey and the North.

I will fight:

- To protect Ramsey Cottage Hospital
- For better healthcare delivery
- For realistic healthcare reform
- For stronger accountability and patient outcomes

Healthcare decisions should not be made solely with Douglas in mind.

The North deserves access to quality healthcare services close to home. I will continue to support Ramsey Cottage Hospital and fight for healthcare provision that recognises the needs of northern communities.

The answer cannot simply be spending more.

ROBERT COWELL

CANDIDATE FOR RAMSEY
HOUSE OF KEYS GENERAL ELECTION 2026

Grow the Economy

**Fix Government and
Protect Taxpayers**

Deliver for Ramsey

Local roots, common sense, real results.

ABOUT ME

I'm a local business owner, former Chairman of Ramsey Town Commissioners, and someone who believes the Isle of Man's best years can still lie ahead.

Throughout my career, I've built businesses, created jobs, and worked with people from across the Island to solve problems and deliver results. I know that success comes from listening, bringing the right people together, and having the courage to make decisions that move things forward.

That same approach shaped my time in local government. As a Ramsey Town Commissioner, and later as Chairman, I worked closely with residents, community groups, and local businesses to improve services and support the continued development of the town. I understand the challenges our communities face, but I also see the opportunities that can be unlocked when people work together with a shared purpose.

Away from public life, I'm a proud father of two and partner to Rachel. Like many families, I want the next generation to have every opportunity to build rewarding lives on the Isle of Man, without feeling they have to leave to fulfil their ambitions.

I believe the Island is at an important turning point. Around the world, artificial intelligence, new technologies, and changing global markets are transforming economies. The Isle of Man has reinvented itself before, and I believe it can do so again—but only if we're prepared to think ahead, embrace opportunity, and act with confidence.

I believe government should make it easier, not harder, for people and businesses to succeed. That means making better decisions, working in genuine partnership with business and communities, investing in the skills and industries of the future, and creating an economy that generates the wealth needed to fund excellent healthcare, education, and public services.

I'm standing for the House of Keys because I believe the Isle of Man deserves practical leadership that brings people together, focuses on solutions rather than politics, and delivers real progress for the whole community.

MY VISION IS SIMPLE

A Stronger Ramsey

A constituency that continues to thrive, supports local businesses, creates opportunities for young people, attracts investment and remains a wonderful place to live, work and raise a family.

A More Ambitious Isle of Man

An Island that embraces innovation, backs enterprise, develops the industries of tomorrow and becomes one of the best places in the world to build a business, build a career and build a life.

A Government That Delivers

A government that listens, makes timely decisions, spends public money wisely, works collaboratively and measures success by the outcomes it achieves for the people it serves.

I'm not standing to make more promises. I'm standing to bring people together, make good decisions and help build a more confident, ambitious future for Ramsey and the Isle of Man.

MY THREE PRIORITIES

Grow The Economy

Without private-sector growth we cannot sustain public services, pensions, healthcare, education or infrastructure.

We must become:

- Faster
- More competitive
- More business-friendly
- More attractive to investment

I will support:

- Faster planning and licensing
- Modern digital government

- Smarter regulation
- Competitive taxation

- Growth in finance, technology, maritime and digital sectors
- Support for entrepreneurs and small businesses The Isle of Man should be one of the best places in the British Isles to start, grow and scale a business.

Fix Government And Protect Taxpayers

Residents are paying more but too often feel they are receiving less in return.

That cannot continue.

Government should:

- Spend responsibly
- Deliver efficiently
- Be transparent and accountable
- Focus on frontline services

I support:

- Independent review of major projects
- Departmental efficiency reviews
- Clear performance targets
- Reduced bureaucracy
- Greater accountability for overspending and failure Government must operate with the same discipline expected of businesses and households.

Deliver For Ramsey

Ramsey deserves more than good intentions.

We need delivery.

My priorities include:

- Flood defences and Quayside regeneration
- High Street improvement
- Protecting healthcare access in the North
- Progressing Cummal Mooar responsibly
- Increasing housing delivery
- Supporting brownfield development
- Unlocking private investment
- Supporting Ramsey as a vibrant northern centre
